

Calcasieu Parish School Board

Student Progress Center Directions

Parent/Guardians of children attending Calcasieu Parish Schools will be able to track their children's progress by connecting to the Student Progress Center. This website will allow a parent/guardian to check a child's attendance, grades, assignments, discipline, transcript, and state test scores in "real time". As soon as data is entered on a student at school, it is available on the Student Progress Center.

For security purposes, in order to create an account, a parent must supply information that matches the information contained in the school's computer system. A student information form containing this information will be provided. If there is no match, an account cannot be made. A parent would then contact the office to verify information. Usually it is a simple matter of making a name match (Ex... Parent's first name is "Charles", but the computer system has "Charlie").

Directions on how to navigate to the site, create an account, and use the site are provided on the following pages:

If you receive a message as shown below, click **“OK”**. Verify your information, and then try again. If this does not work, please contact the school to verify your information against what is contained in the computer system.

The usual problems are related to...

- Names provided don't match names in the system. Example: "Christina" was entered as a parent first name, but the computer system has "Christine". Check the name on the student information form. Is it the same as the one used to create the account?
- The **“PSN”** field does not match the number in the computer system. Check against the PSN number on the student information form, or with the Secretary to verify.
- The relationship used to create the account doesn't match the relationship in the computer system.
