

Quick Tips

1. Go to www.cpsb.org > Parents and Students > Digital Media Resources > Destiny Online Library Catalog.
2. From the drop down menu click *Maplewood Middle*. (Note: You may need to allow pop ups and click *Maplewood* again.)
3. In the *Find* line type your topic, author, or title of the book you are searching for and then press enter. This will bring up all the titles that match your search.
4. Once you find a book that you are looking for look in the top right corner of that book and notice if it has *in*, *out*, or *ask*. If the status is *in* then look for the call number and go locate your book on the shelf. If the status has *out*, then the book is unavailable. If the status has *ask*, then we do not have that title and you need to see the librarian to request it.
5. You can also click the book for more information, including a summary of the book and publication information.
