

# Blackboard

Visit our school website at: <https://www.cpsb.org/Domain/153>

Our last 2 years of school have been like no other years we have experienced. We will begin a new era in parent communication during these extraordinary times. We want our parents to know about their child's teacher, classroom, and what they are learning. We also want our parents to see their children interacting in the classroom activities. We believe that communication between our teachers and parents are top priority. In order to keep parents involved and included we will be using Blackboard websites.

## How to access Blackboard for your child's teacher:

- Go to the CPSB.org
- Click Parents/Students (top of page)
- Click Blackboard (about midway on list)
- Login using your child's CPSB username and password. (the teacher should have sent this home)
- Look under courses on the right side. Click your child's class. (Brenda Hunter Head Start - teacher's name).

## What is a Blackboard Website?

A website used to post announcements, pictures, and videos of classroom lessons, activities, small groups, etc. for parents to view.

## Questions?

If you run into any complications, please do not hesitate to contact your child's teacher.
