

Calcasieu Parish School Board

BUILDING FOUNDATIONS FOR THE FUTURE

Karl Bruchhaus, Superintendent

September 7, 2016

Dear Parents/Legal Guardians:

Act #789 of the legislature states that all girls in public high schools shall be taught the proper procedure for breast self-examination and the need for an annual Pap test for cervical cancer. This will be taught under rules and regulations adopted by the school board.

Classes have been organized to teach girls during high school **P.E.** classes. A female school nurse will teach each class with the use of films and a mannequin. **Live models will not be used at any time.**

A student shall not be required to take instructions if the parent/legal guardian signs and returns this form indicating that such information conflicts with the religious beliefs of the student. If this form is not returned to us with your signature, your daughter will receive the instruction.

Mothers of the students involved in this program are invited to view the film when the class is being taught. Please help us implement a program that will be of benefit to you and your daughter.

Sincerely,

Ginger Pearson, RN
Nursing Coordinator
