

Parents of Eighth Graders who are enrolled in the ACT Prep Class

We want to ensure that all of your students are still able to access ACT prep materials, even while they are at home. We are not sure when students will actually be able to test, but we want them to be as prepared as possible when they do. We are offering access to two free ACT practice tests on our TruScore Online platform. This is absolutely free, with no strings attached, no fees, no renewing subscription -- f r e e.

We have created a registration link for the students in the prep class who are preparing to take the ACT.
