

CPSB DISTRICT 33 BOND ELECTION 2017 FAQ

What is a bond issue? How does a bond issue work?

A bond issue is essentially similar to a mortgage. It is a way for a government body to “borrow” money for major projects that cannot be paid for in more direct ways. Bond issues are how the CPSB has traditionally financed school construction, expansion, and renovation.

(Example for a \$40M Bond Issue)

- 1) If voters approve, borrowing the money is authorized as well as the levy of a property tax for 20 years.
- 2) After the approval, CPSB will sell \$40M in bonds and put the money in a separate account dedicated specifically for the construction associated with the bond issue.
- 3) Projects will be bid and completed in phases to maximize efficiency and minimize disruption and pricing.
- 4) Taxes are collected over the next 20 years to pay off the principle and interest on the bonds.

If the total assessed values increase, the tax paid by each individual can actually decrease. The “tax rate” for property taxes is called a “millage” and it is charged on a percent of the assessed value of the property.

Who is eligible to vote? Who will be paying?

The eligible voters are the residents of Bonding District 33, which is essentially the attendance zone of LaGrange High School. Maps are available on the CPSB website under “school zones”. The taxes would be levied on the assessed value of all residential property (after homestead exemption) and all commercial and industrial property including inventories. Businesses and industries pay at a higher rate than residences and they pay on much higher assessed values.

Why are you proposing a new tax now? What happens if it fails?

There has not been a tax passed in Bonding District 33 for 15 years. The buildings are maintained by the CPSB operating budget but they are structurally aging and need major renovations to modernize them and make them last many more years. The school facilities in the area need upgrades to keep up with the times. If the bond issues fail CPSB will continue to maintain the existing buildings, but aging will only get worse and roofs which are already deteriorating will become a major problem without funding.

How much is this going to cost me?

Cost to Home Owners (Per Month)

Home Value

\$ 75,000	\$ 0.00
\$150,000	\$ 16.81
\$200,000	\$ 28.02
\$250,000	\$ 39.23

What happened to all the gambling money?

CPSB has averaged \$2.85 million in dedicated revenues from “riverboat head tax” for the last ten years, the money has been used across the parish for one-time expenditures like land purchases and classroom construction. The classroom buildings (Pods) are the tan concrete block buildings that have been built in configurations of 2, 4, 6, 8, or 16 classrooms.

CPSB DISTRICT 33 BOND ELECTION 2017 FAQ

Can the sales tax that was just passed in 2015 be used to fund the construction of any school facilities?

No, that tax was dedicated specifically to salaries and benefits and it funded a raise for all employees based around a \$4,000 raise for teachers. The tax has over performed expectations in its first two years because of the economic boom, but the money is still dedicated to that purpose. What hasn't already been paid out is waiting in a dedicated fund for future salaries, stipends, and benefits related expenditures. Detailed accounting of this tax can be obtained by contacting the CPSB accounting department.

When was the last bond issue passed in Southeast Lake Charles (District 33) and what did it pay for?

The last bond issue proposition was May 4, 2002.

Proposition \$29,600,000

New Construction, Renovations, and Upgrades

LaGrange High	\$ 5.2 million	Fairview Elementary	\$3.1 million
Oak Park Middle	\$2.35 million	Kennedy Elementary	\$3.0 million

Brentwood Elementary	\$2.3 million	T.H. Watkins Elementary	\$2.4 million
Henry Heights Elementary	\$1.9 million	Kaufman Elementary	\$2.2 million

What is the process for determining projects to be completed at each school?

Appointed architects visit each school to meet with school administrators and other stakeholders to assess building needs and establish project estimates. Projects are reviewed for necessity and consistency. All estimates are added together to determine the total amount of the bond issue necessary.

Roofs are an integral part of any capital building program. What roofing projects are necessary in this issue?
