

LET'S HELP YOUR CHILD LOVE LEARNING MATH.

Our school is using Zearn Math to help your child make the most of their math learning this year.

Zearn Math is a nonprofit learning platform your child will use to complete online math lessons. In each lesson, your child will:

- ✓ Explore the important math ideas of their grade with an on-screen Zearn teacher
- ✓ Make sense of math with pictures and interactive models
- ✓ Solve math problems in lots of different activities, all with built-in math help

Research shows that students who complete Zearn Math lessons each week significantly increase their math scores.

Your child already has a school-issued account and will complete Zearn Math lessons during the school day. Students can also complete Zearn Math lessons outside of school. Zearn is available online 24/7 and can be accessed by logging with their username and password at zearn.org.

Here are tips for supporting your child's learning with Zearn Math.

You can also reach out to your child's teacher for more information about their progress. For any questions about Zearn, email support@zearn.org.
