

COMP-U-DOPT

A stylized satellite with two rectangular solar panel arrays extending from a central body. The central body has several small circular details. The satellite is angled diagonally across the top left of the page.

EARLY ADOPTERS

MISSION: INNOVATION

A stylized planet with a light blue and white striped surface and a prominent orange ring system. It is positioned in the top right corner of the page.

Comp-U-Dopt seeks aspiring astronauts for an out of this world adventure! Using augmented reality, simple circuits, microcomputers, and block coding, you will try to get back to Earth after being stranded in outer space!

This exciting, hands-on opportunity to explore tech is **free** for all aspiring astronauts, 3rd – 5th grade.

STARTING FALL 2021

A stylized rocket ship with a dark brown body and three large boosters. It is shown ascending from the bottom right corner, with a trail of light blue and white clouds behind it.
