On June 24, 2016, Governor John Bel Edwards signed an Executive Order that gave local taxing authorities the responsibility for determining industrial tax exemption incentives for new or expanding manufacturing industries locating in their parish. Calcasieu Parish has billions of dollars in announced industrial projects that will likely apply for an industrial tax exemption. This document defines the participants and processes for Calcasieu Parish Taxing Authorities in recommending industrial tax exemption incentives for qualified applicants filing an Advanced Notification with Louisiana Department of Economic Development after June 24, 2016.

Participants
The Calcasieu Parish Taxing Authorities Industrial Tax Exemption Program group is composed of one designated representative from each agency: the Calcasieu Parish Police Jury, the Calcasieu Parish School Board and the Calcasieu Parish Sheriff. Representatives from municipalities in Calcasieu Parish will join the group when a project is proposed inside their taxing district(s). Each taxing authority has one designee that serves on the group and identifies their designee by an approved signed resolution. The group reviews the applications for industrial tax exemption incentives, meets with company representatives for presentations and to ask pertinent questions, works collaboratively to determine the recommended terms, amounts, and conditions, and carries the recommendation to their authority for affirmation and approval. Either the President and CEO or the Vice President of Business and Workforce Development for the Southwest Louisiana Economic Development Alliance (the Alliance) shall serve as convener and facilitator for the group.

Preliminary Process:
This preliminary process is established to make a non-binding forecast and estimate for an industrial tax exemption incentive based on confidential data from the Louisiana Department of Economic Development (LED) Project Description spreadsheet for manufacturing companies in the early stages of the site selection process considering a site or sites in Calcasieu Parish.

Steps:
1. Each party named in this process understands and will keep every communication in strict confidence.
2. The company representative completes and files the LED Project Description with LED.
3. LED forwards the Project Description spreadsheet to the Alliance with an ROI and guidance to the group through suggested alternatives as it relates parameters for job creation, payroll, percentage of exemption, and length of contract.
4. The designees from each Taxing Authority will receive the Project Description, ROI, and guidance documents for their review.
5. The designees will have up to three (3) business days to review these documents.
6. The facilitator will host a conference call with the group to reach a consensus on the likelihood that based on the data provided, the project would be recommended for an
industrial tax exemption along with terms, conditions, and amounts of the recommended incentive.

7. The facilitator will draft a letter that clearly states, based on the information provided, the estimated terms, condition and amounts, if any, may be recommended to the taxing authorities as an industrial tax exemption, and send to the group for their review and approval.

8. The final non-binding estimate letter will be forwarded from the Alliance to LED for delivery to the company.

Approval Process
This approval process is established to efficiently, effectively, equitably and objectively review and make final recommendations to taxing authorities on applications for industrial tax exemptions for projects proposed in Calcasieu Parish.

Steps:
1. The manufacturing company files an advanced notification with Louisiana Department of Economic Development (LED) on Louisiana Fastlane website.
2. The company sends a letter requesting an industrial tax exemption addressed to:
   Calcasieu Parish Taxing Authorities
   Industrial Tax Exemption Program
   c/o SWLA Economic Development Alliance
   P O Box 3110
   Lake Charles, LA 70602-3110

AND COPY:

   Kristin Cheng, ITEP Program Administrator
   Louisiana Economic Development
   617 North Third Street
   Baton Rouge, LA 70802-5239

3. A meeting of the designees from the Taxing Authorities is scheduled to review the project application.
4. The letter of request, advanced notification, LED’s calculated return on investment (ROI), and other documents pertaining to the request are electronically sent to the designees for their perusal and meeting preparation.
5. A meeting agenda is drafted based on designee input and e-mailed to the group.
6. The company is notified of the meeting date, time, and place so that they may be represented and answer questions for the designees.
7. The meetings will be private with only members of the designee group and the facilitator present. When invited in, the company representative(s) will be permitted to attend.
8. A quorum for the meeting requires all designees to be in attendance in person.
9. The meetings will follow the published agenda.
10. In keeping with the Rules established by LED, the group will ascertain the economic impact of the proposed project based on the creation of new jobs or, in compelling circumstances, job retention.

11. LED will provide its ROI calculations and guidance to the group through suggested alternatives as it relates parameters for job creation, payroll, percentage of exemption, and length of contract.

12. The group will not entertain requests for incentives from any projects that do not qualify under the Rules established by LED.

13. Discussions and deliberations among the group will be strictly confidential.

14. The only record published from the group is a letter to the respective taxing authorities with a unified recommendation. The recommendation will identify the number of jobs and payroll to be created at the project site, the term of the exemption contract, and the percentage of property eligible for the exemption as an incentive to its manufacturing.

15. Attached to each letter will be a draft resolution for each taxing authority to consider.

16. If approved, the resolution must be signed and sent to LED to serve as Exhibit “B” with the project application for incentives to the Board of Commerce and Industry.

17. Copies of applicable documents will be available for public inspection.
