

# Student Loading

## **Students**

are only allowed to cross in front of the school bus, ten feet from the bumper.

## **Students**

do not cross the street until the driver nods their head to indicate it is safe to cross street!

## **Approaching Student Stops**

- Check all mirrors
- Activate amber student warning lights
- Check all mirrors again
- Now activate red student warning lights

## **Stop**

- Place bus in neutral with your foot on the brake
- Set the parking brake
- Open door

## **Student Discharge**

- Tell students to exit the bus and walk **10 feet** away from the side of the bus.
- Check all mirrors before allowing students off the school bus
- Open door
- You are to count the students while they are exiting the bus.
- Tell students to walk **10 feet** from the front of the bus.

## **Student Crossing**

- Traffic Check
- Students are waiting for you to signal before crossing “Give Signal”
- After students cross, recount students to make sure all are accounted for.

## **Completion**

- Close the door and cancel signals
- Before resuming route; check all mirrors; check traffic, continue route.
- Check Left and Right
